

Hi, my name is
OOHOOH

for **Wild
Imaginations!**

**WILD
ONES!**
Scissor

Hints: Print this file and colour in the drawing.
Cut along the dotted line and put it up on your wall or window.
Or glue the paper onto a piece of card first, then cut along the dotted line and use the stand for easy display on a desk or bookshelf.
You can also punch a hole, attach a string and hang it from the ceiling.

Did you know?!

The smallest monkey in the world is the 'Pygmy Marmoset'. Their bodies are only 15cm long but their tail can be up to 18cm long.

Monkeys have even been to space. The first monkey astronaut was Albert who went to space in a rocket in 1948.

Never use scissors without adults around!

**WILD
ONES!**
