

Hi, my name is
PAWS

for Wild
Imaginations!

**WILD
ONES!**
Scissor

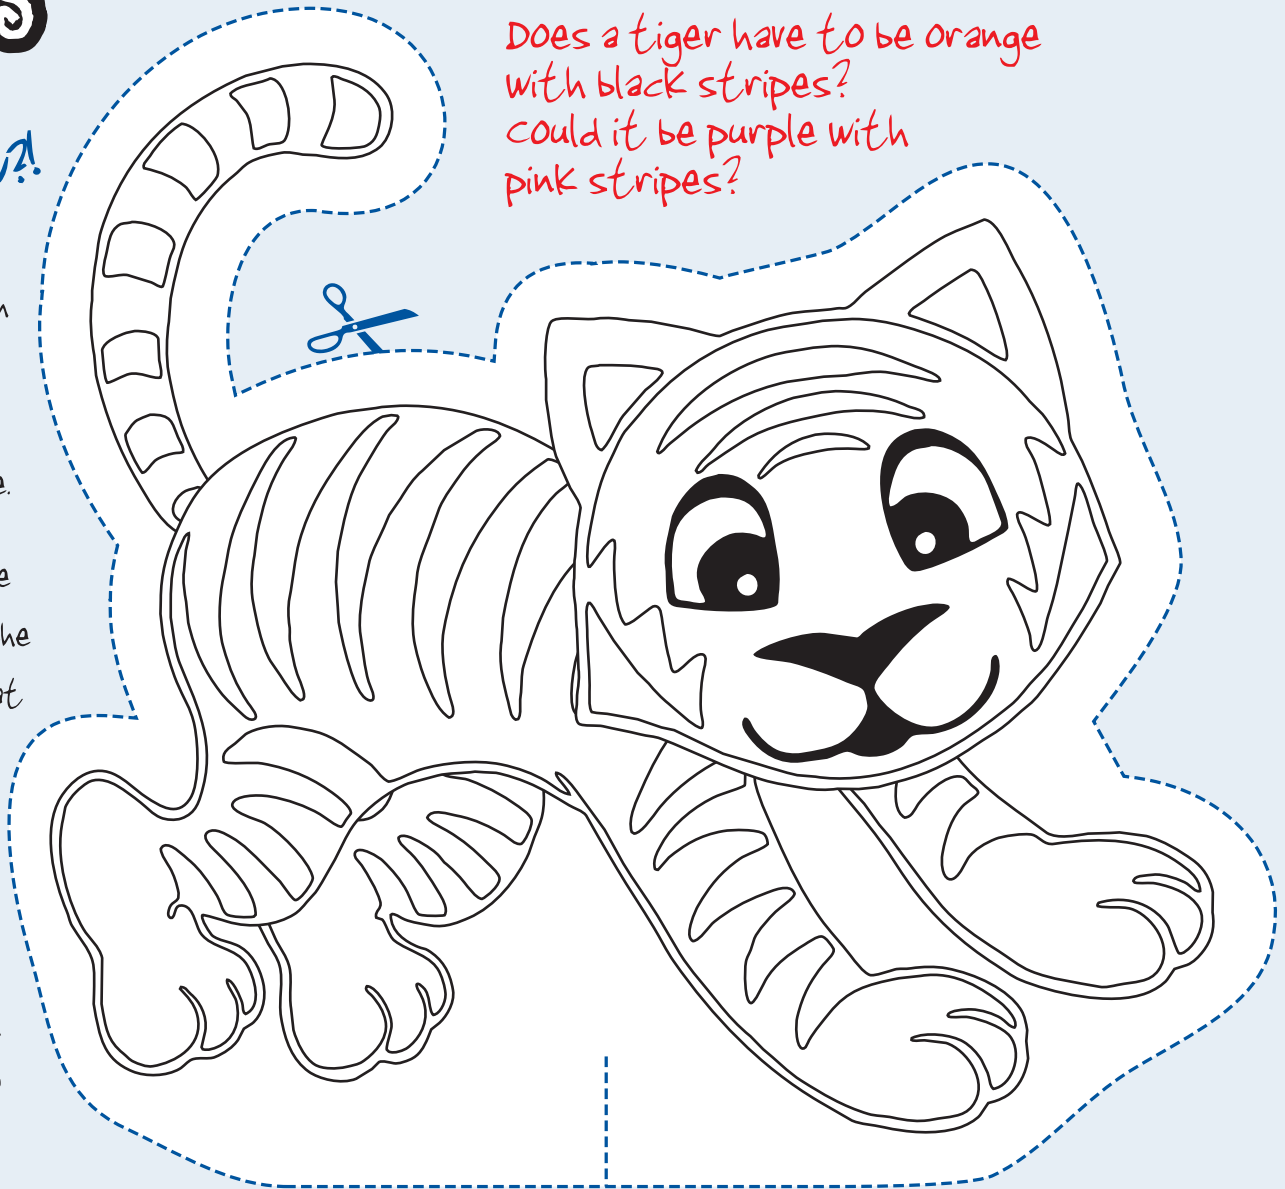

Did you know?!

The stripe pattern on each tiger is unique, just like your fingerprints are.

The Tiger is the largest cat in the world and can eat 150 kg of meat each month.

If you ever want to see a tiger in the wild you should go to India.

Does a tiger have to be orange with black stripes?
could it be purple with pink stripes?

Hints: Print this file and colour in the drawing.
Cut along the dotted line and put it up on your wall or window.
Or glue the paper onto a piece of card first, then cut along the dotted line and use the stand for easy display on a desk or bookshelf.
You can also punch a hole, attach a string and hang it from the ceiling.

Never use scissors without adults around!
