

Hi, my name is  
**STRIPES**

for Wild  
Imaginations!

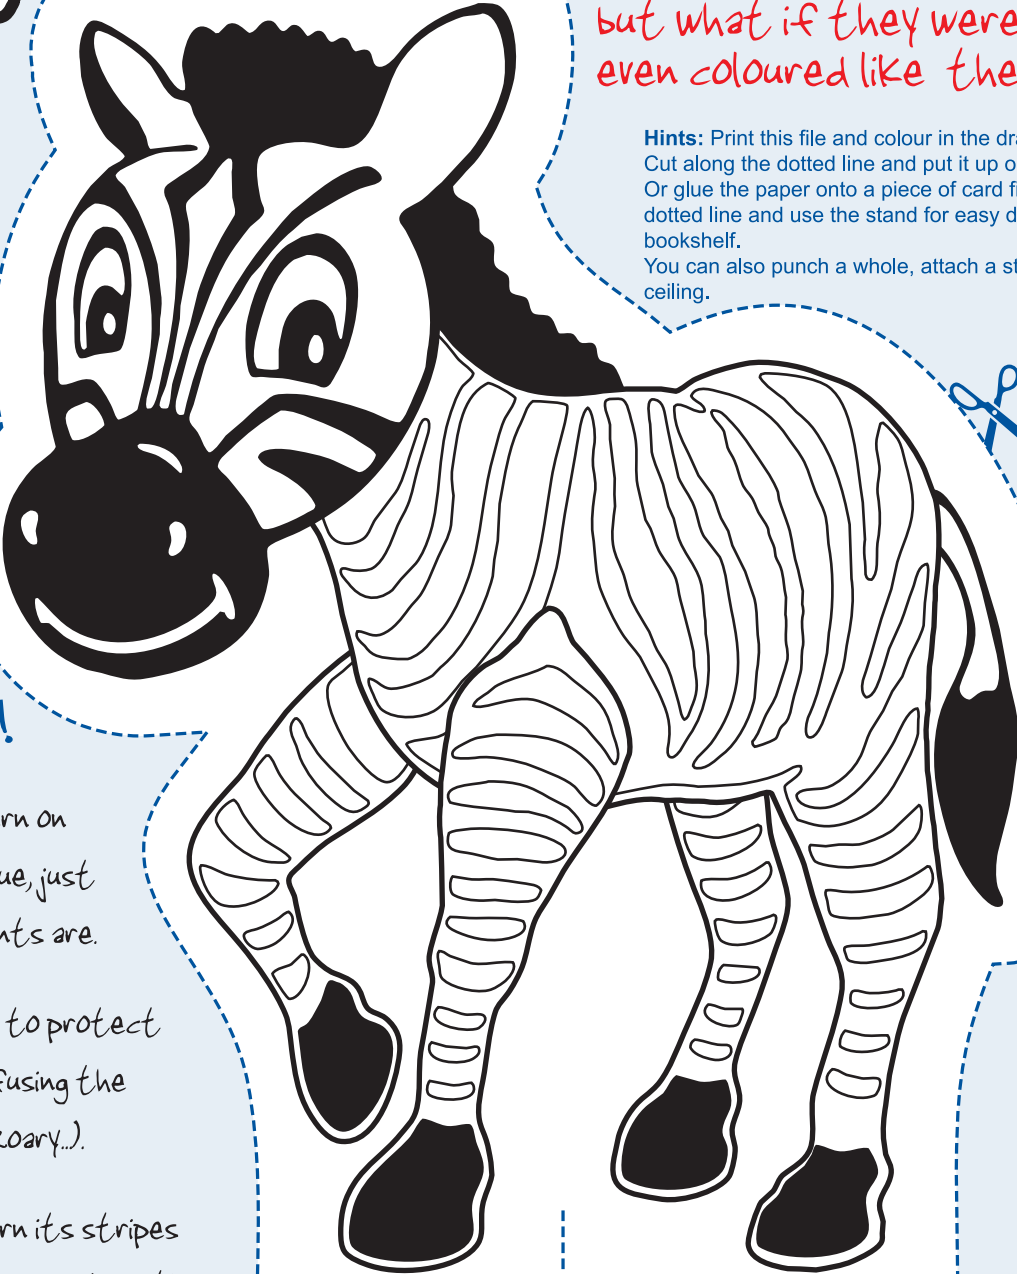

**WILD  
ONES!**  
Scissor

Zebra usually have black stripes but what if they were red, blue or even coloured like the rainbow?

**Hints:** Print this file and colour in the drawing.

Cut along the dotted line and put it up on your wall or window. Or glue the paper onto a piece of card first, then cut along the dotted line and use the stand for easy display on a desk or bookshelf.

You can also punch a hole, attach a string and hang it from the ceiling.

**Did you know?!**

The stripe pattern on each zebra is unique, just like your fingerprints are.

The stripes helps to protect the zebra by confusing the predators (poor Roary..).

When a zebra is born its stripes are brown. As they grow older the stripes become black.

Zebra sleep standing up.

Never use scissors without adults around!
